

Your Trusted Partner in Biopharmaceuticals

Empowering Health, Enabling Futures

At Abiogen Pharma, we advance global healthcare by developing, manufacturing, and delivering high-quality, affordable biological therapeutics and biosimilars. Our mission is to bridge cutting-edge science with patient accessibility to create healthier communities worldwide.

Our Commitment

Quality Without Compromise

Rigorously controlled processes from R&D to delivery.

Patient Centric Innovation

Solutions that address unmet medical needs.

Global Reach, Local Impact

Expanding access to essential medicines worldwide.

Our Strategic Focus Areas

Oncology Biosimilars

High-quality, cost-effective alternatives that make critical cancer therapies more accessible.

Immunology & Inflammation

Biosimilars that support long-term treatment for chronic autoimmune conditions.

Immunology & Inflammation

Biosimilars that support long-term treatment for chronic autoimmune conditions.

The Abiogen Advantage

01. Research & Development

- Strong process development & analytical characterization.
- Demonstrated similarity to originator products.

03. Regulatory Expertise

- Skilled in global pathways (EMA, FDA, WHO).
- Proven success in submissions & approvals.

02. Manufacturing Excellence

- State-of-the-art GMP-compliant biomanufacturing.
- Focus on safety, purity, and potency.

04. Commercialization & Supply

- Strong global partnerships for market success.
- Reliable end-to-end supply chain.

Why Partner With Us?

- Proven scientific capability
 - Scalable clinical-to-commercial solutions
 - Culture built on quality
 - Commitment to accessibility and affordability
-
